Zsuzsanna Jakabos is preparing for her fourth Summer Olympic Games

Since last autumn Zsuzsanna Jakabos became stronger. But the swimmer of the Swimm Club of Győr, who is preparing her fourth Summer Olympic Games, thinks, she needs to be more trained till the start in Rio.

The participant of the Games in Athens, Beijing, and London - specialist of individual medley and butterfly- is preparing her first training- camp in this year. She travels to Sierra Nevada, which is located 2000m elevation. She will travel almost directly to Győr, for the National Championship -starts at the 12th of April-, which is a qualifying event for the Olympic Games as well.

She told us happily, that her operated shoulder tolerates strain more, then before. Thanks to the operation, she is about to achieve the usual "3 challenges" at the Nationals in Győr, at the European Championship in London, and last but not least, she could fight for medals in Rio.
